Magi Partners announces rebrand, name change and new website www.magi.aero

Magi Partners, the aircraft finance and leasing specialist, has today unveiled its new corporate identity and website. Effective 20 September the company name is changed to **Magi Aviation Capital Limited**.

Peter Vardigans, Co-founder and Partner said "The new name better represents where we are today and makes clearer our business focus and Magi's role in the aviation industry. We believe that this will resonate with our existing and future clients as our company continues to grow and evolve as an originator and manager. Just three years after closing our first deal as Magi Partners, we believe we have established our reputation with a track record of delivery by our highly experienced team. We look forward to further developing our origination, structuring and aircraft management capability through the provision of innovative finance and leasing solutions to the global aviation community."

About Magi Aviation Capital

Magi Aviation Capital is an independent aircraft finance specialist. It originates, structures and manages high value aircraft finance and leasing transactions with a focus on institutional investors. The team draws upon many decades of experience across the full spectrum of aviation finance, including leasing, structured finance, airline management and engineering. Working closely with the institutional investor market in Asia and Europe it has, with its partners, a leading track record in the Korean institutional investor market.

Since 2014, Magi has closed transactions for debt, finance leases and operating leases totaling over US\$1.5bn. It also provides ongoing aircraft management services to investors and currently manages over US\$1bn of aircraft assets.
